SUNEX® TOOLS

PRO GRADE HAMMERS

DESIGNED FOR AUTO BODY WORK, METAL SHAPING, ASSEMBLY, AND PRECISION STRIKING TASKS

COMPLETE SET
6 VERSATILE HAMMERS

DURABLE CARBON STEEL
HAMMER HEADS

VIBRATION-DAMPING
HANDLES

- **Complete 6 Piece Hammer Set -** Includes dead blow, drilling, ball peen, rubber mallet, soft-faced, and cross chisel hammers, giving technicians a versatile lineup for metalwork, assembly, auto body work and general striking tasks.
- **Durable Carbon Steel Hammer Heads -** Corrosion resistant, hardened steel heads on the ball peen, drilling, and cross chisel hammers provide longl asting strength for metal
- shaping and heavy-duty striking.
- **Vibration Damping Fiberglass Handles -** Reduce hand fatigue and improve control on the ball peen, drilling, and cross chisel hammers, ensuring comfort during extended work sessions.
- **Clear Weight Identification -** Laser-etched or molded weight markings on each hammer ensure quick tool selection, improving workflow efficiency in busy shop environments.

6 PIECE HAMMER & MALLET SET - SXHS6

SXH32DB - 32 oz Dead Blow Hammer
Delivers maximum impact with reduced rebound, featuring a non marring face and vibration damping core for controlled strikes on delicate or precision surfaces.

SXH3D - 3 lb Drilling Hammer
Compact, high force head delivers powerful blows for freeing rust bonded rotors, driving heavy chisels, and breaking loose seized suspension or drivetrain components in tight automotive spaces.

SXH12SF -12 oz Soft-Faced Hammer with Removable Caps*
Interchangeable medium and soft striking faces protect delicate surfaces while installing trim, aligning panels, and making precise adjustments without marring metal, paint, or finished components.

SXH14CC - 13.6 oz Curved Cross Chisel Hammer*
Curved wedge end reaches tight body lines to shape steel, straighten panels, and remove rivets or pins, making it ideal for precision auto body and fabrication tasks.

SXH16M - 16 oz Rubber Mallet
Soft, rebound controlled head protects surfaces while installing trim, aligning panels, seating parts, and performing delicate automotive adjustments without damaging metal or painted finishes.

SXH16BP - 16 oz Ball Peen Hammer
Balanced steel head delivers precise strikes for shaping metal, driving punches, and removing pins, making it ideal for light fabrication, general automotive repair, and detailed shop tasks.

*SXH12SF & SXH14CC are not sold individually but have a Lifetime Warranty
Removeable Caps on SXH12SF do not have a Lifetime Warranty

Complete 6 Piece Hammer Set

Durable Carbon Steel Hammer Heads

Vibration Damping Fiberglass Handles

Durable molded tray keeps all six hammers neatly stored and easy to access, helping maintain a clean, efficient workspace

ALSO AVAILABLE - INDIVIDUAL 4 LB. 16" HAMMERS

SXH4CP 4 Lb Cross Peen Hammer 16" 3G Fiberglass Handle

Durable Carbon Steel Head – Hardened, corrosion resistant steel delivers long lasting striking power for suspension, steering, and heavy duty metal shaping tasks in automotive and diesel repair.
Balanced Head with Hardened Faces – Ensures controlled, accurate blows for driving punches, chisels, and separating rusted suspension components.
Vibration Damping Fiberglass Handle – Reduces hand fatigue and improves control during repeated hammering, ideal for long shop days and stubborn rusted components.

SXH4E 4 Lb Engineering Hammer 16" 3G Fiberglass Handle

Durable Carbon Steel Head – Hardened, corrosion resistant steel delivers powerful, long lasting striking force for freeing seized hub bearings, rust bonded rotors, and stubborn suspension components.
Balanced Head with Hardened Faces – Ensures controlled, accurate blows for driving punches, chisels, separating rusted suspension components and delivering high energy blows in tight wheel well spaces.
Vibration Damping Fiberglass Handle – Reduces hand fatigue and improves control during repeated hammering.
