# TESLA® JACK PAD SET

## A MUST-HAVE ACCESSORY FOR AUTOMOTIVE TECHNICIANS AND TESLA® OWNERS ALIKE

- Jack Pads ensure that you won't scratch or damage your Tesla® frame or battery components
- This set of 4 Jack Pads is designed to work with all four Tesla® models (3, Y, S, X), with consistent dimensions suitable for all corners of the vehicle
- These jack pads can be used with a variety of floor jacks and shop lifts, enhancing their versatility

## TESLA<sup>®</sup> JACK PAD SET

O-ring keeps pad secured while you adjust jack and serves as a visual indicator that the pad is properly inserted when no longer visible

Constructed from natural one-piece molded rubber, the jack pads are built to withstand wear and tear, ensuring long-lasting use

Diamond-knurled circumference, providing a slip-resistant surface for safe placement into lifting points

These Jack Pads plug into your Tesla<sup>®</sup> frame providing a buffer between the jack and frame without causing damage to the car

Includes soft-sided zipper storage case with EVA foam organization tray (7"x7")
