

For Immediate Release

SUNEX Tools Launches 6813 ¾ Ton Quick Adjust Underhoist Stand for Streamlined Shop Support

Lift More. Lift Quick. Like having an extra set of hands.

Greer, SC (July 1, 2025) – SUNEX Tools is proud to introduce the new 6813 ¾ Ton Quick Adjust Underhoist Stand, engineered for professional technicians working on two-post vehicle lifts. Combining robust support with user-friendly adjustability, the 6813 is designed to increase shop efficiency while handling a wide range of undercar repairs.

With a 1,500 lb. capacity, the 6813 features a bearing-mounted spin handle and self-locking ACME® threaded screw that allow for precise, hands-free height adjustments. Five preset height intervals controlled by a locking pin enable rapid setup, while the spin handle delivers final fine-tuning for perfect positioning.

A 2.5" x 5.2" contoured saddle securely supports shocks, struts, control arms, brakes, tie rods, steering racks, and more. Its 12" wide base offers excellent stability, and the lightweight build makes it easy to move around the shop.

Ideal for installing suspension components, bumpers, or running boards, the SUNEX 6813 is built to withstand the daily grind of professional environments. Backed by a 1-year warranty, it delivers the reliability technicians trust and the adjustability they need.

Key Features & Benefits:

- **Effortless Height Adjustability:** Bearing-mounted spin handle and self-locking ACME® screw deliver smooth, hands-free height adjustments for waist- or chest-height work.
 - **Quick-Adjust Pin System:** Five preset height intervals allow for rapid setup with final fine-tuning done via the top-mounted spin handle.
 - **Contoured Saddle for Stability:** 2.5" x 5.2" saddle cradles various components during repairs—ideal for suspension, steering, and brake work.
 - **Wide Repair Application:** Perfect for work on control arms, ball joints, spindles, tie rods, steering racks, shocks, brakes, and aftermarket accessories.
 - **Lightweight & Portable:** Easy to maneuver around the shop without sacrificing durability or stability.
 - **Stable Base Design:** 12" footprint ensures dependable balance during repairs, even under full ¾-ton loads.
 - **Built for Durability:** High-quality construction ensures long-lasting performance in demanding shop environments.
 - **Boosts Technician Productivity:** Simple operation and solid build reduce downtime and streamline under-vehicle repairs.
 - **Warranty-Backed Confidence:** Includes a 1-year limited warranty for peace of mind.
